Architectural lighting

for individual
projects

NIVISS is an internationally operating company located in Poland with huge experience in the electronics sector. Since the foundation the company has excelled in designing and the production of LED based products with special focus on the quality of all offered solutions.

NIVISS is engaged in designing, implementing and manufacturing of LED Engines (LED modules) and LED Lighting (outdoor lighting). All products, which base on LEDs, meet the highest quality standards and have all required certificates.

The beginnings of NIVISS are closely linked with Maritex. However, NIVISS is now an independent, highly specialized engineering and manufacturing company focusing its efforts on developing modern high-end lighting solutions based on CREE LEDs.

NIVISS comprehensively pursues the production process and simultaneously offers:

- technical advice (selection of the LEDs, optics, power source and driving circuit),
- the design of LED modules and their adjustment to the needs of the application.

NIVISS constantly improves and raises the qualifications of the staff and simultaneously invests in a modern laboratory used for developing and testing new LED lighting products.

The company is able to provide both mass production, as well as smaller series of custom solutions implemented for a particular customer. All NIVISS products are energy efficient and environmentally friendly.

NIVISS has its own engineering team, laboratory, SMT production line, as well as experience in development of optoelectronics.

Outdoor & Pool

GROUND NANO

GROUND NANO max. 700mA

Niviss Ground Nano, is the smallest luminaire in the Niviss family. Power from 1W to 2W, depending on the current you apply directly to the LED, from 350mA to 700mA. Full stainless steel housing, IP67 front and IP65 body provide many installation options, such as saunas or spas, bathrooms, kitchens, stair lighting, terraces, gardens.

Housing	SS316L
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67/IP65
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.3m
Wiring	UL1007, AWG 20
Dimming	PWM, ON-OFF
Light emission	direct
Angle of distribution	15, 30, 60
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical
Nominal voltage [V]	~3V, max. 700mA CC
Light source	LED

Accessories

GROUND MICRO

GROUND MICRO 12V/24V DC

Niviss Ground Micro max power 2W was designed for the most demanding customers who expect a beautiful finish not only on the front. SS316L stainless steel body made with IP67 technology. Niviss Ground Micro luminaire can be used to illuminate many places and objects, such as parks, gardens, terraces, squares, premises, swimming pools.

Housing	SS316L
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	H07RN-F 2X1.5
Dimming	ON-OFF, PWM
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical
Nominal voltage [V]	12V/24V DC
Rated power [W]	2
Light source	LED
Angle of distribution	17°, 31°, 39°

Accessories

GROUND MICRO **R****G****B**W

GROUND MICRO RGBW 4x150mA

Niviss Ground Micro RGBW is a luminaire with a max power of 150mA per channel. The full stainless steel housing and IP67 rating provide many installation options, such as: bathrooms, kitchens, stairway, lighting, terraces, gardens, vegetation.

Housing	SS316L
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	FLRY-B 8X0.5
Dimming	ON-OFF, PWM
Light emission	direct
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical
Nominal voltage [V]	~4x3V, max. 4x150mA CC
Rated power [W]	2
Light source	LED
Angle of distribution	38°, 56°, 100°

Accessories

Outdoor & Pool

GROUND MINI

GROUND MINI 12V/24V DC

Niviss Ground Mini is a luminaire with a max power of 3,5W and 12V/24V DC. The full stainless steel housing and IP67 rating provide many installation options, such as: bathrooms, kitchens, stairway, lighting, terraces, gardens, vegetation.

Housing	SS316L
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	H07RN-F 2X1.5
Dimming	ON-OFF, PWM
Light emission	direct
Colour rendering index	≥80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical
Nominal voltage [V]	12V/24V DC
Rated power [W]	3.5
Light source	LED
Angle of distribution	15°, 27°, 43°

Accessories

GROUND
STANDARD

GROUND STANDARD PREMIUM 12V/24V DC

The Ground Premium series of max 6W is designed to achieve the best visual effect by having no screws on the front. Made of the highest quality materials such as marine steel, high purity glass and modern CREE LED®. Niviss Ground Standard Premium luminaire can be used to illuminate a wide range of places and objects, such as: parks gardens terraces squares premises plants.

Housing	SS316L, Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	H07RN-F 2X1.5
Dimming	ON-OFF, PWM
Light emission	direct
Colour rendering index	≥80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical
Nominal voltage [V]	12V/24V DC
Rated power [W]	6
Light source	LED
Angle of distribution	10°, 20°, 45°

Accessories

GROUND STANDARD PREMIUM 220-240V AC 50/60Hz

The Ground Premium series of max 7W is designed to achieve the best visual effect by having no screws on the front. Made of the highest quality materials such as marine steel, high purity glass and modern CREE LEDs. Niviss Ground Standard Premium luminaire can be used to illuminate many places and objects, such as parks, gardens, terraces, squares, premises, plants.

Housing	SS316L, Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	I
Connection	0.5m
Wiring	H07RN-F 3G1
Dimming	ON-OFF
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	inside the luminaire
Light distribution	symmetrical
Nominal voltage [V]	220-240V AC 50/60Hz
Rated power [W]	7
Light source	LED
Angle of distribution	10°, 20°, 45°

Accessories

GROUND STANDARD 12V/24V DC

The Niviss Ground Standard max 6W is designed for the most demanding customers who expect a beautiful finish beyond the front. It has an SS316L stainless steel or aluminum body and is IP67-rated. Niviss Ground Standard luminaire can be used to illuminate a wide range of places and objects, such as parks, gardens, terraces, squares, premises, swimming pools.

Housing	SS316L, Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	H07RN-F 2X1.5
Dimming	ON-OFF, PWM
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	< 3
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical
Nominal voltage [V]	12V/24V DC
Rated power [W]	6
Light source	LED
Angle of distribution	10°, 20°, 45°

Accessories

GROUND STANDARD 220-240V AC 50/60Hz

The Niviss Ground Standard, with a maximum power of 7W, has been designed for the most demanding customers, who expect a beautiful finish not only on the front. The body is made of SS316L stainless steel or aluminum and made with IP67 technology. Niviss Ground Standard luminaire can be used to illuminate many places and objects, such as parks, gardens, terraces, squares, premises.

Housing	SS316L, Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	I
Connection	0.5m
Wiring	H07RN-F 3G1
Dimming	ON-OFF
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	inside the luminaire
Light distribution	symmetrical
Nominal voltage [V]	220-240V AC 50/60Hz
Rated power [W]	7
Light source	LED
Angle of distribution	10°, 20°, 45°

Accessories

GROUND STANDARD SLIM 12V/24V DC

Niviss Ground Slim max 6W is an advanced, energy-efficient and friendly luminaire. The IP67 rating gives it many possibilities for outdoor applications. It is based on LED technology from one of the leaders in solutions, the American company Cree. Ground Standard Slim can be used to illuminate objects and places like: parks, gardens, terraces, bike paths, squares.

Housing	SS316L, Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	H07RN-F 2X1.5
Dimming	ON-OFF, PWM
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical
Nominal voltage [V]	12V/24V DC
Rated power [W]	6
Light source	LED
Angle of distribution	30°, 50°

Accessories

NGROUND STANDARD 220-240V AC 50/60Hz

The nGround series, with a maximum power of 5W, was designed for the most demanding customers looking for customized and economical solutions. The body of the luminaire is made of cast aluminum, which enabled a significant reduction in weight and price. The luminaires are ideal for illuminating garden or park spaces. Due to their lightweight design, they are easy to install on exterior walls. Niviss nGround luminaire can be used to illuminate a wide range of places and objects, such as parks, gardens, terraces, squares, premises, plants.

Housing	Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	I
Connection	0.5m
Wiring	H07RN-F 3G1
Dimming	ON-OFF
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	inside the luminaire
Light distribution	symmetrical
Nominal voltage [V]	220-240V AC 50/60Hz
Rated power [W]	5
Light source	LED
Angle of distribution	10°, 20°, 45°

Accessories

GROUND STANDARD BRASS

GROUND STANDARD BRASS 12V/24V DC

The Niviss Brass series was designed for the most demanding customers who expect more from their lighting. The unique combination of brass, passion and experience makes the Niviss Brass series our most luxurious version of ground and garden fixtures. We're not afraid to say that we've created a work of art for lighting luxurious indoor and outdoor spaces. Niviss Ground Standard Brass can be used to illuminate a wide range of places and objects, such as parks, gardens, terraces, courtyards, premises.

Housing	Brass
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10

GROUND

STANDARD **R****G****B**W

GROUND STANDARD RGBW 12V/24V DC

The Ground Standard RGBW series has been designed using modern simulation methods to achieve the highest product quality. The luminaires are made from the highest quality materials such as marine steel, high purity glass for optical applications and state-of-the-art CREE LEDs. The Niviss Ground Standard RGBW can be used to illuminate a wide range of locations and venues, such as parks, gardens, terraces, squares and premises.

Housing	SS316L
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 65 000h

GROUND MEDIUM BRASS 220-240V AC 50/60Hz

The Niviss Medium Brass series is designed for the most discerning customers who expect more from their lighting. Niviss' unique combination of brass, passion and experience makes the Niviss Brass series our most luxurious version of ground and garden products. We're not afraid to say that we've created a work of art for lighting luxurious indoor and outdoor spaces. The Niviss Ground Medium Brass lamp can be used to illuminate a wide range of places and objects, such as: parks, gardens, terraces, squares, premises.

Housing	Brass
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	I
Connection	0.5m
Wiring	H07RN-F 3G1
Dimming	ON-OFF
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	inside the luminaire
Light distribution	symmetrical
Nominal voltage [V]	220-240V AC 50/60Hz
Rated power [W]	20
Light source	LED
Angle of distribution	10°, 20°, 30°, 45°

GROUND
MEDIUM RGBW

GROUND MEDIUM RGBW 12V/24V DC

The Ground Medium RGBW series has been designed using modern simulation methods to achieve the highest quality product. These luminaires are made of the highest quality materials such as marine steel, high purity glass for optical applications and state-of-the-art CREE LEDs. Niviss Ground Medium RGBW can be used to illuminate a wide range of places and facilities, such as parks, gardens, terraces, squares, and premises.

Housing	SS316L, Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 65 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	JZ-600 5G1
Dimming	ON-OFF, PWM
Light emission	direct
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical
Nominal voltage [V]	12V/24V DC
Rated power [W]	24
Light source	LED
Angle of distribution	15°, 30°, 45°

Accessories

GROUND BIG

GROUND BIG PREMIUM 12V/24V DC

The Ground Big Premium series of 30W max is designed to achieve the best visual effect by having no screws on the front. The lamps are made of the highest quality materials, such as marine steel, high purity glass and modern CREE LEDs. Niviss Ground Big Premium fixture can be used to illuminate many places and objects, such as parks, gardens, plazas, premises, plants, outdoor walls.

Housing	SS316L, Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	H07RN-F 2X1.5
Dimming	ON-OFF, PWM
Light emission	direct

GROUND BIG 12V/24V DC

The Niviss Ground Big with a maximum output of 30W was designed for the most demanding customers, who expect a beautiful finish not only on the front. The body is made of SS316L stainless steel or aluminum, and the lamp itself is made with IP67 technology. Niviss Ground Medium fixture can be used to illuminate many places and objects, such as parks, gardens, terraces, squares, premises, swimming pools.

Housing	SS316L, Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C

NGROUND BIG 220-240V AC 50/60Hz

The nGround Big series, with a maximum wattage of 30W, was designed for the most demanding customers looking for customized and economical solutions. The luminaires are ideal for illuminating garden and park spaces. Thanks to their lightweight design, they are easy to install on outdoor walls. The lamp is designed for installation in places such as gardens, parks, exterior walls, plants.

Housing	Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C

REFLED

REFLED 220-240V AC 50/60Hz

Niviss Refled is a new way of thinking in the entire lighting industry. The lamp has a maximum power of 20W and a voltage of 220-240V AC 50/60Hz. The new design of the optics and motion sensor combines modern luminaire design and features. The product has a passive eye protection system, which allows a 10-fold reduction in glare compared to lamps from other manufacturers, and an active eye protection system that provides a 100-fold reduction in glare. The Refled luminaire can be used to illuminate many places and objects such as parks, gardens, terraces, squares, properties, plants.

Housing	SS316L, Aluminum
Glass type	Tempered Tempered with anti-scratch coating
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67

FLOODLIGHTS

FLOOD MICRO 12V/24V DC

Floodlight Micro is the smallest product in our family of projectors. It is made of SS316L steel. The projector comes in a version on a mounting plate or on a spike (for ground mounting). Power 2W. Floodlight Micro luminaire can be used to illuminate many places and objects, such as: parks, gardens, architectural elements.

Housing	SS316L
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	H05RN-F 2X0.5
Dimming	ON-OFF, PWM
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical
Nominal voltage [V]	12V/24V DC
Rated power [W]	2
Light source	LED
Angle of distribution	17°, 31°, 39°

Accessories

FLOOD STANDARD SMOOTH 12V/24V DC

Floodlight Standard Smooth is made of SS316L steel. The projector is available in a plate or spike (for ground mounting) version. Thanks to its slimmed-down design, it is far less visible than its standard version. Power of 67W. Floodlight Standard Smooth can be used to illuminate many places and objects, such as parks, gardens, exterior walls, monuments, rooms, plants.

Housing	SS316L
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK08
Protection class	I
Connection	0.5m
Wiring	H07RN-F 2X1.5
Dimming	ON-OFF, PWM
Light emission	direct

Angle of distribution	10°, 20°, 30°, 45°

Accessories

NFLOOD MEDIUM 220-240V AC 50/60Hz

The nFloodlight Medium projector is made of aluminum. The projector comes in a version on a plate. Power 17W. The nFloodlight Medium luminaire can be used to illuminate many places and objects, such as parks, gardens, exterior walls, monuments, rooms.

Housing	Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	I
Connection	0.5m
Wiring	H07RN-F 3G1
Dimming	ON-OFF
Light emission	direct
Colour rendering index	≥80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	inside the luminaire
Light distribution	symmetrical
Nominal voltage [V]	220-240V AC 50/60Hz
Rated power [W]	17
Light source	LED
Angle of distribution	10°, 20°, 30°, 45°

Accessories

NFLOOD BIG 220-240V AC 50/60Hz

The nFloodlight Big projector is made of aluminum. The projector comes in a version on a mounting plate. Power 30W. The nFloodlight Big luminaire can be used to illuminate many places and objects, such as parks, gardens, exterior walls, monuments, rooms.

Housing	Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	I
Connection	0.5m
Wiring	H07RN-F 3G1
Dimming	ON-OFF
Light emission	direct
Colour rendering index	≥80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%

FLOOD NSCOPE 220-240V AC 50/60Hz

The nScope was designed for the most demanding customers who are looking for customized solutions. Made of 316L steel. Power of 13W. nScope can be used to illuminate many places and objects such as parks, gardens, terraces, squares.

Housing	SS316L
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	I
Connection	0.5m
Wiring	H07RN-F 3G1
Dimming	ON-OFF
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%

FLOODLIGHTS

BRASS

FLOOD MICRO BRASS 12V/24V DC

Floodlight Micro Brass is the smallest product in our family of projectors. It is made of brass. The projector comes in a version on a mounting plate or on a spike (for ground mounting). Power 2W. Floodlight Micro Brass luminaire can be used to illuminate many places and objects, such as: parks, gardens, architectural elements.

Housing	Brass
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	H05RN-F 2X0.5
Dimming	ON-OFF, PWM
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical
Nominal voltage [V]	12V/24V DC
Rated power [W]	2
Light source	LED
Angle of distribution	17°, 31°, 39°

Accessories

FLOOD STANDARD SMOOTH BRASS

12V/24V DC

Floodlight Standard Brass, as the name suggests, is made of brass. The projector comes in a version on a mounting plate or on a spike (for ground mounting). Power of 6W (IP67). This luminaire is aimed at those who want the destination of these fixtures to look unique. Floodlight Standard Brass can be used to illuminate many places and objects, such as . parks, gardens, exterior walls, monuments, premises.

Housing	Brass
Glass type	Tempered
Working temperature range	20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	H07RN-F 2X1.5
Dimming	ON-OFF, PWM
Light emission	direct
Colour rendering index	≥80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical
Nominal voltage [V]	12V/24V DC
Rated power [W]	6
Light source	LED
Angle of distribution	10°, 20°, 45°

Accessories

FLOOD STANDARD SMOOTH BRASS

220-240V AC 50/60Hz

Floodlight Standard Brass, as the name suggests, is made of brass. The projector comes in a version on a mounting plate or on a spike (for ground mounting). Power of 7W (IP67). This luminaire is aimed at those who want the destination of these fixtures to look unique. Floodlight Standard Brass can be used to illuminate many places and objects, such as . parks, gardens, exterior walls, monuments, premises.

Housing	Brass
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	I
Connection	0.5m

Dimming	ON-OFF
Light emission	direct
Colour rendering index	≥80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	inside the luminaire
Light distribution	symmetrical
Nominal voltage [V]	220-240V AC 50/60Hz
Rated power [W]	7
Light source	LED
Angle of distribution	10°, 20°, 45°

Accessories

FLOOD MEDIUM BRASS 12V/24V DC

Floodlight Medium is made of brass. The projector comes in a plate version. Power 18W. This luminaire is aimed at people who want to make the destination of the lamps look unique. Floodlight Medium can be used to illuminate many places and objects, such as parks, gardens, exterior walls, monuments.

Housing	Brass
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	0.5m
Wiring	H07RN-F 2X1.5
Dimming	ON-OFF, PWM

Nominal voltage [V]	12V/24V DC
Rated power [W]	18
Light source	LED
Angle of distribution	10°, 20°, 30°, 45°

Accessories

FLOOD MEDIUM BRASS 220-240V AC 50/60Hz

Floodlight Medium Brass, as the name suggests, is made of brass. The projector comes in a plate version. Power 20W. This luminaire is aimed at people who want to make the destination of brass products look unique. Floodlight Medium Brass can be used to illuminate many places and objects, such as parks, gardens, exterior walls, monuments.

Housing	Brass
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP67
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	I
Connection	0.5m

POOL LUMINARIES

POOL MICRO 12V/24V DC

The Niviss Pool Micro, with a maximum power of 2W, has been designed using state-of-the-art simulation methods to ensure superior sealing and provide years of trouble-free operation. The Pool Micro Series fixtures are made of the highest quality 316L stainless steel, and the light source is LEDs from American company CREE. Some of the possible applications are: swimming pools, ponds, fountains, wharves.

Housing	SS316L
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP68
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	1,5m
Wiring	SIHF 2X1.5
Dimming	ON-OFF, PWM
Light emission	direct
Colour rendering index	≥80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately
Light distribution	symmetrical

Angle of distribution	15°, 27°, 43°

Accessories

POOL STANDARD SLIM 12V/24V DC

Niviss Pool Standard Slim with maximum power of 6W was designed with passion using modern technologies. The lamp is made of the highest quality 316L stainless steel, and the light source is LEDs from the American company CREE. The slim mounting depth allows you to use this lamp in any location, such as pools, ponds, fountains, squares, gardens, wharves.

Housing	SS316L
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP68
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	1,5m

Rated power [W]	18
Light source	LED
Angle of distribution	10°, 20°, 30°, 45°

Accessories

POOL MEDIUM TITANIUM 12V/24V

Niviss Pool Medium Titanium with a maximum power of 18W was designed with passion using modern technologies. The lamp is made of stainless steel and titanium alloy for the best possible protection against corrosion, and the light source is LEDs from the American company CREE. The shallow mounting depth allows you to use this lamp in any location, such as pools, ponds, fountains, plazas, gardens, wharves.

Housing	SS316Ti
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP68
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	III
Connection	1,5m

POOL LUMINARIES **R****G****B**W

POOL STANDARD RGBW 12V/24V DC

The Pool Standard RGBW series has been designed using modern simulation methods to achieve the highest quality product. These luminaires are made of the highest quality materials such as marine steel, high purity glass for optical applications and state-of-the-art CREE LEDs. Niviss Pool Standard RGBW can be used to illuminate a wide range of places and facilities, such as parks, gardens, terraces, squares, pools, fountains.

Housing	SS316L
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP68
Lifetime L80B10	≥ 65 000h
Impact resistance	IK10
Protection class	III
Connection	1,5m
Wiring	JZ-600 4G1
Dimming	ON-OFF, PWM
Light emission	direct
Luminous flux tolerance	±10%
Power supplies	apart from the luminaire, ordered separately

WALL LUMINARIES

NWALL 220-240V AC 50/60Hz

The nWall luminaire is made of the highest quality materials, such as SS316L/ Aluminum and high purity glass for optical applications. Power of 11W. The Niviss nWall lamp can be used to illuminate many places and objects, such as gardens ramps facade lighting stairs terraces squares.

Housing	SS316L/Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP65
Lifetime L80B10	≥ 60 000h
Impact resistance	IK10
Protection class	I
Connection	0.5m
Wiring	H07RN-F 3G1
Dimming	ON-OFF
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplise	inside the luminaire
Light distribution	symmetrical/asymmetrical
Nominal voltage [V]	220-240V AC 50/60Hz
Rated power [W]	11
Light source	LED
Angle of distribution	40°/AS

Accesories

NSTEP MINI 220-240V AC 50/60Hz

Niviss nStep Mini luminaire will find use in both classic and modern interiors, thanks to its original design and aluminum construction. Power 4,6W. This product can be used to illuminate many places and objects such as: stairs, gardens, corridors, terraces, shopping malls.

Housing	Aluminum/PC
Working temperature range	-20°C ÷ +55°C
IP protection class	IP65
Lifetime L80B10	≥ 60 000h
Protection class	I
Connection	0.2m
Wiring	H07RN-F 3G1
Dimming	ON-OFF
Light emission	indirect
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	inside the luminaire
Light distribution	asymmetrical
Nominal voltage [V]	220-240V AC 50/60Hz
Rated power [W]	4.6
Light source	LED

Accessories

NSTEP STANDARD 220-240V AC 50/60Hz

Niviss nStep Standard luminaire, thanks to its original design and aluminum construction, can be used in both classic and modern interiors. 9,8W. This lamp can be used to illuminate many places and objects, such as stairs, gardens, corridors, terraces, shopping malls.

Housing	Aluminum/PC
Working temperature range	-20°C ÷ +55°C
IP protection class	IP65
Lifetime L80B10	≥ 60 000h
Protection class	I
Connection	0.2m
Wiring	H07RN-F 3G1
Dimming	ON-OFF
Light emission	indirect
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	inside the luminaire
Light distribution	asymmetrical
Nominal voltage [V]	220-240V AC 50/60Hz
Rated power [W]	9.8
Light source	LED

Accessories

TUBE ROUND 220-240V AC 50/60Hz

Niviss Tube is a wall lamp with a subdued circular design. It consists of die-cast aluminium, a reflective cup and toughened glass, with a high-quality special powder spraying process on the outside, which can make the lamp have a high weather resistance and anti-aging function, and the protection rating is IP65. They can be used as indoor and outdoor facade lighting, architectural decorative lighting.

Housing	Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP65
Lifetime L80B10	≥ 40 000h
Impact resistance	IK07
Protection class	I
Dimming	DALI 2
Light emission	direct
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	inside the luminaire
Light distribution	symmetrical
Nominal voltage [V]	220-240V AC 50/60Hz
Rated power [W]	24
Light source	LED
Angle of distribution	18°, 36°

Accessories

TUBE SQUARE 220-240V AC 50/60Hz

Niviss Tube is a wall lamp with a simple square design. It consists of die-cast aluminium, a reflective cup and toughened glass, with a high-quality special powder spraying process on the outside, which can make the lamp have a high weather resistance and anti-aging function, and the protection rating is IP65. They can be used as indoor and outdoor facade lighting, architectural decorative lighting.

Housing	Aluminum
Glass type	Tempered
Working temperature range	-20°C ÷ +55°C
IP protection class	IP65
Lifetime L80B10	≥ 40 000h
Impact resistance	IK07
Protection class	I
Dimming	DALI 2
Light emission	direct
Colour rendering index	≥ 80

BOLLARD

NBOLLARD 220-240V AC 50/60HZ

The Bollard series was designed using modern simulation methods to achieve the highest quality product. The product based on LEDs of the renowned American company CREE. Power 24W. Bollard outdoor lighting fixtures from Niviss can be used to illuminate and illuminate many places and objects, such as parks, gardens, monuments, squares, fountains, among others.

Housing	Aluminum
Working temperature range	-20°C ÷ +55°C
IP protection class	IP65
Lifetime L80B10	≥ 65 000h
Impact resistance	IK10
Protection class	I
Connection	0.5m
Dimming	ON-OFF/DALI-2 DT6
Light emission	indirect
Colour rendering index	≥ 80
SDCM colour tolerance	<3
Luminous flux tolerance	±10%
Power supplies	inside the luminaire
Light distribution	symmetrical
Nominal voltage [V]	220-240V AC 50/60Hz
Rated power [W]	24
Light source	LED
High	250/600/1000mm
Angle of distribution	360°
